

Mathis MAGRON

ENGINEERING STUDENT

+33 7 67 04 32 26

mathis.magron@laposte.net

Toulouse, FRANCE

mathismagron.github.io/eportfolio/

M1 engineering student at ENSEEIHT, majoring in HPC & Big Data. I am seeking a 2 to 3 month internship starting in June 2026.

ACADEMIC PROJECTS & PROFESSIONAL EXPERIENCES

HACKATHON "IA FOR IMPACT" – LOGISTICS OPTIMIZATION

September 2025

ENSEEIHT - Toulouse, France

- Analyzed complex datasets (vehicle fleets, ride history, geolocations) provided by the Departmental Council.
- Designed an algorithm to optimize driver schedules and mutualize trips for the Child Welfare Service.
- Focused on constraints such as specific time windows (<20 min waiting time) and GDPR compliance.

INTERNATIONAL HOSPITALITY INTERNSHIP

July - August 2025

Karo Foresuta Motohakoneruchia – Japan

- Immersed in a Japanese professional environment, demonstrating high adaptability and cultural awareness.
- Strengthened communication skills by interacting with international customers in English and Japanese.

JAVA GAME DEVELOPMENT PROJECT (SCRUM MASTER & DEVELOPER)

Jan 2025 - Jun 2025

- Coordinated a team of 8 using Agile/Scrum methods (Sprints, Backlog) to build a Rogue-Like game.
- Developed the game engine architecture and UI using Java and LibGDX while ensuring code modularity (Package separation).
- Managed version control (Git) and project deliverables.

NATIONAL HACKATHON "NUIT DE L'INFO"

December 2025

- Participated in a nationwide overnight hackathon to build a web application promoting digital sovereignty and open-source solutions.
- Demonstrated rapid problem-solving skills and adaptability by delivering a deployable MVP (Minimum Viable Product) in under 15 hours.
- Won several challenges among hundreds of teams : ChatBox challenge, Hidden Snake challenge.

EDUCATIONAL BACKGROUND

ENSEEIHT - MASTER DEGREE IN ENGINEERING – GRANDE ÉCOLE PROGRAM

2024 - Present

École nationale supérieure d'électrotechnique, d'électronique, d'informatique, d'hydraulique et des télécommunications - Toulouse

- Relevant CourseWork : Machine Learning, Data Analysis, Optimization & Graph Theory, ...

JEAN PERRIN - PREPARATORY CLASSES FOR GRANDES ÉCOLES (PCSI/PSI)

2022 - 2024

- Relevant CourseWork : Mathematics, Physics, Engineering Science, Computer Science

ADDITIONAL SKILLS

- **Programming:** Java, Python, OCaml, C, ADA, Matlab, Bash.
- **Development Tools:** Git (Branching, Merging, Conflict Resolution), Linux/Unix Environment.
- **Data Science:** Data Analysis (Keras), Optimization Algorithms.
- **Methodologies:** Agile & Scrum (Sprint Planning, Backlog Management), UML Modeling, OOP Design Patterns.
- **AI & Productivity:** Prompt Engineering, AI-Assisted Programming, LLM-based Debugging.
- **Languages:** French : Native | English : Fluent | Japanese : Beginner
